PRE-OP INSTRUCTIONS FOR CATS & DOGS

Your pet has an appointment for an operation

on:

at:

It is important to follow these instructions carefully as they will make your pet's stay with us more comfortable.

- Your pet must be starved before an operation so with hold food after 8pm the night before. Water can be made available overnight but must be removed first thing in the morning.
- Your cat must be kept in overnight prior to the operation so that it does not have an opportunity to eat elsewhere and/or will not be missing in the morning.
- Ensure your pet has had an opportunity to go to the toilet **before** you arrive at the surgery.
- When you arrive at the surgery you will have an appointment with a nurse who will go through the admissions procedure including signing an anaesthetic consent form and providing contact numbers for **ALL** times during the day.
- We will ask you to contact the surgery between **1pm – 2pm** to enquire after your pet and to arrange a collection time.
- Payment for operations is expected at the time of collection. We can provide an estimate on request and any concerns regarding payment must be addressed to a member of staff prior to admission or treatment. We accept cash, cheques and credit/debit cards.
